Allstate began providing portable sanitation services in 1988 when it was discovered that a need for clean and sanitary portable toilets existed within our service area. This need was compounded by the additional demand for prompt, courteous, and emergency services that was not supplied by our competitors.

Our staff of over ten technicians provides prompt, courteous, and regular services. We also offer twenty-four hour, seven days a week emergency services.

WE OFFER...

Our portable restrooms will accommodate your needs! The Fleet units are perfect for any event, including outdoor weddings. Construction sites are no exception. We offer High-Rise Units that are capable of raising the unit to sites that are not grounded.
